8:30								
09:30	Оре	ening Ceremony KEYNOTE LECTURE I: The Professor AboulGhar lect	ure	Room: Al Saraya 1 Room: Al Saraya 1				
10:00	Chair: J. Ayoubi (France), M. AlHalabi (Syria), J. Awwad (Lebanon)							
	01 Uterine Tissue Engineering and the Future of Uterus Transplantation Mats Brännström (Sweden)							
10:00 11:00		Ferring Symposium: Combining Efficacy and Safety: Chair:M. Aboulghar (Egypt)	Growi	ng Clinical Evidence Room: Al Saraya 1				
10:00		Balancing safety with efficiency in ovarian stimulation	ion					
10:30		Fabio Cruz (Spain) Individualization of Ovarian Stimulation						
11:00	- 11:30	Christophe Blockeel (Belgium)						
11:30	11.50	Merck Symposium: Reducing time to Live birth		Room: Al Saraya				
12:30 11:30		Facts and myths on the utilization of FSH in ART						
12:00		Yacoub Khalaf (UK)						
12:00		Facts and myths on the utilization of LH in ART Carlo Alviggi (Italy)						
12:30	CONC	Room: Al Saraya 1 URRENT SCIENTIFIC SESSION 1:	CONC	Room: Al Saraya 2				
01:30	Optim	izing the Endometrial Milieu	Repro	ductive Endocrinology				
Chair 12:30	J. Ayoul	bi (France), B. Rizk (USA), N. Bozkurt (Turkey) Does the endometrial receptivity array really	A. Ran 05	nzy (Egypt), R. Aytaç (Turkey), A. Nasr (Egypt) Progesterone and reproduction - insight into				
		provide personalized embryo transfer? Robert Casper (Canada)		related controversies Yacoub Khalaf (UK)				
12:50	03	Luteal phase support: New challengers with FETs	06	Progesterone supplementation for frozen embryo				
		Dominique de Ziegler (France)		transfer: is it surely effective? Jean Noel Hugues (France)				
01:10	04	Uterine transplantation and fertility preservation Mats Brännström (Sweden)	07	Progestins for pituitary suppression in ART Baris Ata (Turkey)				
13:30	- 14:30	Lunch Break						
14:30 15:30		URRENT SCIENTIFIC SESSION 3: y preservation		URRENT SCIENTIFIC SESSION 4: ed Reproductive Technologies				
Chair		ılkarim(KSA), Ş. Zeteroğlu (Turkey), E. Elhussen (Sudan)		lashar (Egypt), M. Çolakoğlu (Turkey), Y. Zaghloul (Egypt				
14:30	08	The effects of stage and grade of cancer on fertility preservation	11	Recurrent pregnancy loss - An update on Evaluation & Management				
1,-		Togas Tulandi (Canada)		Lubna Pal (USA)				
14:50	09	Uterine transplantation from deceased donors: The French experience	12	Ovarian reserve and reproductive performance Baris Ata (Turkey)				
15:10	10	Jean Marc Ayyoubi (France) Fertility preservation in the twenty-first century	13	Ovarian reserve as a guide to ovarian stimulation				
		Botros Rizk (USA)	13	Hassan Sallam (Egypt)				
15:30 16:00	- 16:00 CONC	Coffee Break URRENT SCIENTIFIC SESSION 5:	CONC	CURRENT SCIENTIFIC SESSION 6:				
17:00	Inferti	lity	Assist	ed Reproductive Technologies				
Chair 16:00	A. Khal 14	is (Iraq), M. Hafez (Sudan) Unconsummated marriage as a cause of infertility:	A. Faye 17	ek (Egypt), M. Arslan (Turkey) Platelet rich plasma use in reproductive medicine				
		Middle East perspective case study AbdelMaguid Ramzy (Egypt)	.,	current status Aboubakr Elnashar (Egypt)				
16:15	15	Timing of hCG-OPU interval and effects on	18	Recurrent implantation failure: Gynecologist				
		fertility Rawad Basssil (Leb)		perspective Eman El Gindy (Egypt)				
16:30	16	Prof Samir Abbas best research Award: The effect of follicular fluid pesticides and	19	Is there a place for biosimilar rec. FSH in the IVF treatment cycles? Systematic review and meta-				
		polychlorinated biphenyls concentrations		analysis				
		on intracytoplasmic sperm injection (ICSI) embryological and clinical outcome		Mohamed Youssef (Egypt)

EXHIBITORS INDEX

Please pay a visit to the exhibit and meet with the

following exhibitors and sponsors				
America Medic & Science (AMS)	С			
Cook Medical	15			
CooperSurgical	29,30,31,32			
CROWN FERTILITY	7			
EIO	13			
Ferring	Α			
Global Pharma	11,12			
Gynemed	D			
IBSA	18,19,20			
IVF tech Aps	8			
Kitazato Corporation	14			
Laboratoires Surveal	28			
Labotect GmbH	B1			
MEALIS	4			
Merck	G,F			
Minapharm Pharmaceuticals	5			
Olympus	E			
REPROLAB SUPPLIES LLC	16,17			
Roche Diagnostics	27			
UpperEgypt	22			
W.I.S Pharm	1,2,3			

Friday November 1, 2018								
14:30	- 15:00	Coffee Break						
	Room: Al Saraya 1			Room: Al Saraya 2				
15:00 16:00	CONCURRENT SCIENTIFIC SESSION 13:			CONCURRENT SCIENTIFIC SESSION 14: Reproductive Surgery - II				
Chair	R. Mansour (EGY), F. Choucair (LEB),		M. Kandeel (EGY), F. Shaltout (EGY), H. Haggag (EGY)					
15:00	47	On the role of cryopreservation Laura Rienzi (Italy)	50	Latin-American Association of Rep. Med. (ALMER): Virtual Hysteroscopy for the uterine cavity evaluation before IVF Sergio Papier (Argentina)				
15:20	48	The latest on the fresh vs freeze all debate Kurt Barnhart (USA)	51	Complications of operative hysteroscopic procedures & management of life-threatening hyponatremia Cihat Unlu (Turkey)				
15:40	49	Culturing embryos beyond five days in clinical practice: a new lease of life Fadi Choucair (Leb)	52	Ovarian activation and transplantation [video] Togas Tulandi (Canada)				
16:00 17:00			CONCURRENT SCIENTIFIC SESSION 16: Reproductive Surgery - III					
Chair	R. Mansour (EGY), H. Hashim (KSA), I. Miled (Tunis),		A. Ramzy (EGY), J. Awwad (LEB), S. Ismail (EGY)					
16:00	53	Methods of embryo assessment today Laura Rienzi (Italy)	56	Pre-IVF treatment of hydrosalpinx Togas Tulandi (Canada)				
16:20	54	PGT-A, Does it improve ART outcome? George Attia (USA)	57	Rewriting the script: time to rethink the indications for myoma surgery John Petrozza (USA)				
16:40	55	Characterization of embryonic cells derived from multiple fetal embryo reduction Ragaa Mansour (Egypt)	58	How and why manuscripts get published Kurt Barnhart (USA)				
17:00 18:00			CONCURRENT SCIENTIFIC SESSION 18: Controlled ovarian stimulation					
Chair	J. El Hijji (Kuwait), F. Al Waeely (Iraq), M. Hosny (Egypt)		M. Halabi (Syria), H. Nour (Sudan), T. Shocair (Egypt)					
17:00	59	Mosiac EmbryosWhat to do? George Attia (USA)	62	The Indian Fertility Society Exchange Lecture: The future of controlled ovarian stimulation M Gouri Devi (India)				
17:20	60	Elective Single Embryo Transfer (eSET): The American Experience and SART 2017 Guidelines Ricardo Loret de Mola (USA)	63	Dental health and male infertility Teddy Tedros (Leb)				
17:40	61	The Reproductive Nursing special Interest group lecture: Telenursing communication in fertility settings for a better patient support throughout fertility treatment Mona Fawwaz (Lebanon)	64	Comparative efficacy of dome-shaped obstetric pessary and cervical cerclage for the correction of cervical insufficiency Natalya Artymuk (Russia)				

		Mona Fawwaz (Lebanon)		Natalya Artymuk (Russia)				
18:00	М	eeting at Exhibit						
Saturday November 2, 2019								
		Room: Al Saraya 1		Room: Al Saraya 2				
09:00 10:00	ORAL PRESENTATIONS SESSION 3: Assisted Reproductive Technologies		ORAL PRESENTATIONS SESSION 4: Assisted Reproductive Technologies					
Chair	Y. Al Fa	isal (Egypt), H. Al Rumaih (Kuwait)	M. Chahnez (Algeria) A. Husseini (Iraq)					
09:00	65	Impact of Mitochondrial DNA copy number on assisted reproductive technology outcome in patients undergoing pre-implantation genetic testing for aneuploidy Chadi Fakih (Lebanon)	69	Serum estradiol and progesterone levels impact on clinical and chemical pregnancy rates in frozen embryo transfer cycles Ozkan Aydin Leylek (Turkey)				
09:15	66	Replacing antagonist by clomiphene citrate to prevent premature ovulation: is it possible? Imad Aboujaoude (Lebanon)	70	Low LH level on the day of GnRH agonist trigger is associated with reduced ongoing pregnancy and live birth rates and increased early miscarriage rates following IVF/ICSI treatment and fresh embryo transfer Abdelhamid Benmachiche (Algeria)				
09:30	67	Impact of Endometrial Thickness on the success rate of Intracytoplasmic Sperm Injection (ICSI) at Royal Care International Hospital Fertility Center Mariam Melik (Sudan)	71	Impact of high progesterone level the day of trigger on blastocyst quality in GnRh antagonist IVF/ICSI cycles: is there an evidence? Samira Barbara (Algeria)				
09:45	68	Hormone replacement therapy and successful pregnancy in a patient with premature ovarian failure Galia Milad (Libya)	72	Comparison between natural cycle and artificial cycle in frozen-thawed embryo transfers: retrospective cohort study Diaa Qamhia (Palestine)				
10:00	- 10:30	Coffee Break						
10:30 12:30		PRESENTATIONS SESSION 5: ed Reproductive Technologies	ORAL PRESENTATIONS SESSION 6: Assisted Reproductive Technologies					
Chair			A. Elhelaly (EGY), A. Metwally (EGY)					
10:30	73	Effects of fertility medications on glucose homeostasis and other metabolic parameters in women undergoing in vitro fertilization Ayla Coussa (UAE)	80	A double-blind, randomized trial of a cytokine- enriched medium in human embryo culture after ICSI Mohamed Fawzy (Egypt)				
10:45	74	The Consequence of Exercise Therapy among Menopausal Women Asma Bin Zablah (Libya)	81	Morphometry of human embryos that resulted in pregnancy Yousef Alhelou (UAE)				
11:00	75	Prediction of Premature Ovarian Insufficiency and Prevalence of Medical Diseases Mlitan H (Libya)	82	Case study: A healthy baby delivery using double thawed-frozen oocytes and sperm Lina Herimat (Palestine)				
11:15	76	Exercise as an Intervention in Reducing Side Effects of Breast Cancer Qais Gasibat (Libya)	83	The effect of Reproductive methods on pregnancy outcome following hysteroscopic adhesiolysis in patients with Asherman's syndrome Saeed Bardawan (KSA)				
11:30	77	Individualized controlled ovarian stimulation for ART Ayman Nady Abdelmeged (Egypt)	84	The diagnostic accuracy of 3-dimensional saline infusion transvaginal ultrasound (3-D SIS) compared with combined laparoscopic - hysteroscopic procedure in distinction between septate and bicornuate uteri				

septate and bicornuate uteri Mahbod Ebrahimi (Iran)
