

Amber R. Cooper, MD

Dr. Amber Cooper is double board certified in both Obstetrics and Gynecology and Reproductive Endocrinology and Infertility. She is Medical and IVF Practice Director at Vios Fertility Institute St. Louis as well as Adjunct Assistant Professor within the Department of Obstetrics, Gynecology and Women's Health at St. Louis University. She also holds a Master of Science in Clinical Investigation and some additional training in translational research and graduate genetics.

Ever since graduating first in her medical school class she has continued to achieve numerous honors, teaching, patient satisfaction, and surgical awards, and has numerous publications. She has been actively involved in the American Society for Reproductive Medicine and has served on the Board of Directors of the Society of Reproductive Endocrinology and Infertility in the US. She is incoming President on the executive board of the Midwest Reproductive Symposium International, sits on many scientific advisory boards and has been the principal investigator of several research studies and trials.

Her ongoing clinical studies and interests surround ovarian aging, genetics, fertility preservation in cancer, autoimmune and genetic conditions, access to care, and diminished ovarian reserve/primary ovarian insufficiency (POI).
